

Dear Chairpersons Wilson & Costello-

As an individual who struggles daily to manage my own complicated multi-autoimmune diseases and as the leader of a national patient organization, I have written the attached letter asking you to please support SB 32 regarding regulation of biological products. Having access to a full arsenal of treatments and knowing that the medications we are prescribed are safe and efficacious is extremely important to people like me.

Please feel free to contact me if you have any questions and thank you for your consideration.

Warm regards-
